

RET

THE PARTNER FOR YOUR SOLUTIONS

Elastomer technology from R E T

Competencies

- | Molded parts
- | Composite parts
- | Dispensed parts
- | Component assembly

Manufacturing processes

- | Injection technology
- | Composite technology
- | CIPG / FIPG technology
- | Surface treatment

THE ELASTOMER EXPERTS

R.E.T. as a company of the REIFF-Group stands for more than 50 years for competence and precision in the technology of elastomers. Whether molded parts, composite parts or dispensed sealings: if this is about simple sealings or sealing systems, we provide the proper solution. As elastomer experts we are solving your tasks. Innovation, appraisal, reliability and sustainability are living corporate values in everything we do. Because we have one goal: satisfied customers!

E-Mobility

As an experienced partner, we will accompany you in the future.

Autonomous driving

We are already protecting sophisticated sensors and electronic devices.

Medical technology

Our know-how is present across the entire technology field.

New technologies

We are developing together, innovatively and future oriented.
